

# FMPIS Fortnightly Report

(01<sup>st</sup> – 15<sup>th</sup> May 2021)

# Fish Market Price Information System (FMPIS) - Introduction

- Launched in the year 2019, the FMPIS project was initially implemented in 82 markets covering 05 States and 01 UT for collecting the fish price information till December 2020.
- Subsequently, 195 new markets were registered during January 2021 under FMPIS covering the states of Karnataka and all NE states, totalling to 277 markets on board.
- 254 enumerators were identified against the 277 markets and identification of enumerators for remaining markets is under progress.
- For the current fortnight, culled out data of 53 markets from 10 states was analysed.
- Among the new fish markets registered, Assam has been noted as an active participant in entering the fish price data followed by Tamil Nadu.
- Due to the COVID 19 Pandemic situation, many of the markets were closed and hence the data received for this fortnight is comparatively less .
- Also, since there exists a BAN PERIOD for both East and West coast of India, the contribution of the marine fish species is comparatively less .

No. of markets entered data

53

## Statewise markets entered data

Fortnight: 01st - 15th May 2021

State/UT	No. of Markets
Assam	13
Tamil Nadu	12
Tripura	6
